Section I: Introduction

Colorado Mountain College ("CMC") is a statutory local college district established in 1965. The district and service area cover 12,000 square miles in all or part of nine counties. CMC offers 77 certificates, 54 associate degrees and 5 bachelor's degrees.

The long-standing investment from our communities allows us to keep our quality high, our tuition affordable and our access wide open. Eleven world-class mountain locations in central Colorado enable big-school opportunities in small, personal settings. Our unusually strong local partnerships create rich experiences for real-world learning and careers. The result? Proven student success that makes Colorado Mountain College a choice that's uniquely smart. For additional information about CMC, please go to www.coloradomtn.edu.

CMC reserves the right to make multiple awards resulting from this RFP or to award no contract at all.

CMC uses the Rocky Mountain E-Purchasing System ("BidNet") to post solicitations and any supporting or additional information, including Addenda, Bid Sheet, and awards. Proposals must be submitted prior to close on BidNet. CMC cannot accept a response that did not come through the right channel on time. Visit <http://www.bidnetdirect.com/colorado> for help with customer service or other questions. Please make sure to leave time for unexpected technical or other trouble. You are encouraged to submit a day early. Sometimes submittals take longer to load than expected; if you run out of time before you are finished with your entire upload CMC will not be presented with the response.

The only exception to the use of BidNet is that all questions from potential bidders must be submitted to bids@coloradomtn.edu. Those questions will then be responded to by addendum posted to BidNet.

Please do not directly contact any member of CMC's staff or faculty, or any member of the Selection Committee other than the Buyer listed in this document regarding this proposal. Any attempt to do so will result in your firm's disqualification at the discretion of the Director of Purchasing and Contracts.

- CMC will have updated environmental testing completed in October. If there are any additional areas requiring abatement, CMC will contract directly with the abatement contractor to complete the work prior to January 3, 2022.

Proposals submitted for this request will be reviewed and scored to determine which firms will be short-listed to bid on the full construction documents for CMC's nursing lab renovation.

This building was renovated in 2019-2020. At that time, this particular area had the flooring removed, wall base removed, ACM walls removed, new ceiling grid installed, new lighting, new mechanical equipment installed, and sprinklers were added. As much of the existing ceiling and lighting that can be reused is requested. Knowing that a future renovation would be occurring within two years, no other work has been completed in this area.

CMC will contract directly with the low voltage sub-contractor, AV contractor, and AV integrator. All conduit runs for both electrical and low voltage will be the responsibility of the general contractor/electrical sub, but CMC's low voltage contractor will pull the cabling and terminate the low voltage. CMC will also contract directly with Alpha Security for security cameras and Stanley for all card readers, but the contractor will be responsible for the conduit runs.

▶ **INDEMNIFICATION.**

Successful Bidders shall indemnify and save CMC harmless from any and all claims, demands, suits, and actions which may arise from errors or omissions caused by the Bidder in conjunction with its contractual obligations including, but not limited to, obligations for the preparation of any and all documents required by CMC in conjunction therewith, and shall defend all suits, in the name of CMC when applicable, and shall pay all costs and judgments which may issue thereon.
